HC12-21366

*I Bill Kenny believe, based upon data currently available and not taking into consideration the data that will surface from a simple investigation that the road to hell is paved with good intentions. It seems as obvious as it originally appeared as a rule, instead of an exception.*

The authorities have been deceived and should be pissed off but instead appear to be in damage control and are concealing this problem instead of facing it. Let's get everything above board and resolve it **once** and for all. (Note: emphasize once) Because of false assumptions a mistake was made and things turned out much differently than they should have.

On the morning of Valentines Day Lisa Kenny and I were exchanging emails about dividing up pictures at 4pm at Blindlake. I emailed Lisa and said I **would be there at 4pm** to get my ½ of the wall pics. I left early afternoon and borrowed a neighbors truck, to pickup a bed for my son, went to 99 and Westheimer to pick-up a Queen bed, frame, night stand, lamps. On the return trip at 4pm I stopped at Blindlake. No one was there, I called Lisa from the porch, James (son 15) answered, they were around the corner and will be home in a minute. They arrived Lisa opened the door and went in, I went in, James came in.

Lisa and I were unable to decide on a procedure and <sup>she</sup> wanted to postpone it, so I began removing the pictures I wanted from the wall collage of pictures. Lisa wasn't happy with me taking pics and threatened to call the police, I said call the police and your attorney, you can't keep my property this should have been exchanged 2 weeks ago when I left Blindlake on Feb 3rd.

Lisa started attacking me, hitting me, scratching me, biting me, pinch, punch, digging, etc. After collecting 11 of the 37 pictures that I cared about I was trying to leave and Lisa pushed me into a table. I finally got out the door and into the truck parked in the street, Lisa came running out of the house and ran to my van, when she realized my brother was driving the van Lisa ran to the truck. Before I could roll up the window and lock the door Lisa started reaching in for the pics that were on the passenger seat. I pushed her back and drove away.

Joe called around 7pm asking for Lisa and Maggie, I told that 2 faced lying snake they were not able to come to the phone. After that call I realized Maggie was over at Gooselake, Joe was calling and I wasn't sure what they were cooking up. My divorce has been just as exceptional as this bizarre case.

Then next morning Lisa's attorney called me and told me I can't just barge into the house and rip pictures off the wall. We set up a conference call with our mediator, me, Lisa, Tamara Bibb(atty), Allyson(mediator). At this point I had no idea that the police were called last night to Blindlake and the mediator said 'Bill why don't you tell us what happened'. So instead of revealing to everyone that Lisa beat me I said Lisa ~~was~~ expressed her dissatisfaction. Allyson decided that we should take turns and divide all 37 pics within the next 24hrs. Which we did.

The following day Bill Kenny found out the details of this incident when his children told him about it. Bill Kenny was very upset that he was never notified by the police of the TERRORIST THREAT or that he was the SUBJECT OF A POLICE REPORT.

Bill Kenny started gathering facts about what had taken place behind his back. Based upon the data available Bill Kenny came to the conclusion, that any unbiased 3<sup>rd</sup> party would, and that a mistake has been made. Bill Kenny requests a full investigation and hopes this pursuit of justice ends here. Bill Kenny will cooperate fully in this investigation, and prays there will be no retaliation for bringing this to your attention.
